Marketing generalist with experience building marketing functions, positioning technical products, and supporting sales through content and partner campaigns.

EXPERIENCE

Compound Foundation May 2026 - Oct. 2026

Founding Social & Community Lead (*Contract*) *Remote*

- Managed the Foundation's X and LinkedIn channels as its first dedicated social hire, covering product announcements, ecosystem partnerships, and governance updates.
- Developed and ran **Partner Spotlight**, featuring longstanding integrations with Kiln, DeFi Saver, Chainlink, and Sky. The series earned **2.9**x **the median X views** of other July-August content.
- Built a **repeatable workflow** to turn onchain and Dune data into Compound v3 performance stories. Used Claude and designer-created Figma templates to independently produce charts and social cards.
- Produced institutional-market growth stories and yield-opportunity posts that BD regularly shared with prospective allocators, demonstrating traction as the market reached **$60M** in supplied capital.

StableLab Jan. 2023 - Jan. 2026

Head of Marketing *Remote*

- Built the marketing function from zero at a governance and data infrastructure company serving **40+ protocol partners**, including Uniswap, Aave, and Arbitrum. Adapted marketing across services, product development, and a shift to sales-led growth.
- Led **Forse**'s naming, brand development, positioning, and launch. Repositioned the product from DAO and community audiences to foundation and core-team buyers, aligning messaging and sales materials around incentive performance and growth measurement.
- Built the Governance Lab newsletter to **920+ subscribers** across **121 issues**, with a **38% open rate**. Produced and hosted StablePod, interviewing leaders from Morpho, Euler, Gnosis, and the Uniswap Foundation.
- Developed product one-pagers and landing-page messaging with business development, translating technical capabilities into clear buyer use cases.
- Led communications for **8+ partnership announcements** and marketing around major industry conferences, including a **150+ attendee** Governance Gathering at EthCC Brussels.

Boardroom Aug. 2022 - Dec. 2022

Content Lead *Remote*

- Established content strategy and production workflows with product and engineering; published **50+ pieces** across newsletters, podcasts, Twitter Spaces, and social threads explaining DAO governance.

Orca Protocol & RabbitHole Jan. 2022 - Aug. 2022

E*arlier contributions* *Remote*

- Contributed to governance and contributor coordination at Orca Protocol; led RabbitHole's education workstream, coordinating 40+ contributors and developing DeFi and DAO educational resources.

PROJECTS

The Tokenization Map tokenizationmap.com

Interactive map of the RWA/tokenization ecosystem

- Built an interactive map of the tokenization ecosystem covering **200+ organizations** and **1,000+ relationships** across nine categories.
- Developed an automated research pipeline to monitor industry coverage, validate structured data, and flag outdated claims.
