Marketing generalist with experience building marketing functions, positioning technical products, and supporting sales through content and partner campaigns.

EXPERIENCE

Compound Foundation May 2026 - Oct. 2026

Founding Social & Community Lead *Remote*

- First dedicated social hire, managing the Foundation's X and LinkedIn across product launches, ecosystem partnerships, and governance.
- Owned social launch sequencing and partner co-marketing for the **Institutional Market,** preparing partner-specific copy, coordinating publishing dates, and managing partner outreach and amplification.
- Developed and ran **Partner Spotlight** with Kiln, DeFi Saver, Chainlink, and Sky. The series earned **2.9**x **the median views** of other posts published during the same period.
- Established Institutional Market traction reporting with the team through a Dune dashboard built with Claude. Turned deposits and collateral data into growth stories used in BD's allocator conversations as the combined total reached **$60M**.
- Built AI-assisted workflows for onchain research, content production, and performance reporting, using Claude and reusable Figma templates to independently produce charts and social cards.

StableLab Jan. 2023 - Jan. 2026

Head of Marketing *Remote*

- Built the marketing function from zero at a governance and data infrastructure company serving **40+ protocol partners,** including Uniswap, Aave, and Arbitrum.
- Led **Forse's** naming, brand development, positioning, and initial launch as StableLab expanded from governance services into software.
- Led Forse's rebrand and relaunch from DAO-focused analytics to growth intelligence for foundations and protocol teams. Owned positioning, website structure, and copy; directed visual design and developed sales materials for the new buyers.
- Built Governance Lab from zero to **920+ subscribers,** publishing **121 issues** with a **38% average open rate**.
- Produced and co-hosted **29 StablePod episodes** with founders and leaders from Morpho, Euler, Gnosis, and the Uniswap Foundation, deepening partner relationships and supporting business development.
- Led ***G*overnance *G*athering** at EthCC Brussels, securing co-sponsors and overseeing event delivery to deepen relationships with industry partners and prospective clients.

Boardroom Aug. 2022 - Dec. 2022

Content Lead *Remote*

- Built content strategy and production workflows alongside product and engineering. Published **50+ pieces** across newsletters, podcasts, Twitter Spaces, and social threads explaining DAO governance.

Orca Protocol & RabbitHole Jan. 2022 - Aug. 2022

Community Contributor / Ambassador *Remote*

- Contributed to governance and contributor coordination at Orca Protocol. Led RabbitHole's education workstream, coordinating **40+ contributors** and developing DeFi and DAO educational resources.

PROJECTS

The Tokenization Map tokenizationmap.com

Interactive map of the RWA/tokenization ecosystem

- Built an interactive map of the tokenization ecosystem covering **200+ organizations** and **1,000+ relationships** across nine categories.
- Developed an automated research pipeline to monitor industry coverage, validate structured data, and flag outdated claims.
