EXPERIENCE

Compound Foundation

May 2026 - Oct. 2026

Founding Social & Community Lead

Remote

- Owned X and LinkedIn as the Foundation's first social and community hire; grew LinkedIn from **203 to 734 followers (+262%)** and X from **3,436 to 3,964 (+15%)**
- Created **Claude-powered workflows** to turn onchain data into content about protocol growth and generate Figma assets; independently built and ran the **Institutional Market dashboard and daily brief**
- Ran GTM for the **\$52M DAO-approved funding program** and new leadership announcement through earned media, co-marketing, and owned content; generated **125K+ views across the Foundation's own X posts** with fewer than 4K followers
- Led social and co-marketing for the **Institutional Market** launch, amplifying **The Defiant** coverage through WBTC and DeFi Saver posts to support BD outreach. The market reached **\$60M in capital supplied**
- Ran **weekly partner content** to support BD, including campaigns with Sky and Chainlink; launched the monthly **State of Compound** recap

StableLab

Jan. 2023 – Jan. 2026

Head of Marketing

Remote

- Built the marketing function from zero at a governance and crypto data infrastructure company serving **40+ protocol partners** including Uniswap, Aave, Arbitrum, and Sky; owned strategy, positioning, and operations end to end
- Repositioned StableLab across services, product development, and sales-led GTM
- Led product marketing for **Forse**, a multi-product data platform: naming, brand identity, positioning, category framing, sales collateral, and GTM launch
- Generated **800K+ impressions** and **18K+ unique visitors** across two B2B brands during the transition from services to product
- Grew newsletter to **920+ subscribers** and produced **27+ podcast episodes** with crypto founders
- Drove BD and partnership efforts through content, co-marketing, and IRL events including a **150+ attendee** side event at EthCC Brussels

Boardroom

Aug. 2022 – Dec. 2022

Content Lead

Remote

- Built the content function for a governance tooling platform; defined strategy, built production workflows, aligned with product and engineering
- Shipped **50+ governance-focused content pieces** (newsletters, podcasts, Twitter Spaces, threads), translating complex protocol governance into accessible narratives

Orca Protocol

Apr. 2022 – Aug. 2022

Contributor

Remote

- Contributed to pod-based DAO governance model; drafted compensation proposal paying **10+ contributors**, defined member roles, and ran weekly coordination calls

RabbitHole

Jan. 2022 – Apr. 2022

Contributor / Pathfinder

Remote

- Led Education workstream with **40+ contributors**; ran strategy calls while shipping **10+ educational threads** and a **100+ article** public database on DeFi and DAO fundamentals

PROJECTS

The Tokenization Map

tokenizationmap.com

Interactive map of the RWA/tokenization ecosystem

- Hand-curated **200+ players** and **1,000+ relationships** across 9 categories, mapping the full tokenization stack from issuance to custody to distribution
- Built interactive force-directed graph with deep-linked URL state, search, filtering, and community submission system; Next.js on Vercel
- Automated research pipeline with daily media scanning, schema validation, and claim staleness tracking
